EDITORS BLURB

Following closely the precedent set in the past few years, your editor is sitting down in late August to write his literary contribution to the "Concentrates". It is difficult for one to comment on the activities of the past year when anticipation of the new term dominates one's mind. It is under these conditions that I the railroaded editor, who vowed to have the "Concentrates" out by the end of April, am writing a few words to accompany the 1968 - 69 edition of the "Concentrate".

The 1968 - 69 term saw a slight increase in 'Ore Ganguer' membership but a very great increase in participation especially in the fields of sports and social activities. The generally crowded condition of the coffee room which has become a virtual brewing - pot for 'Ore Ganguer' events is possibly the result of the new 80 - cup coffee pot. This chrome - plated, spigot - bearing beast apparently spews forth a brew so powerful that any new student innocently taking a drink is immediately addicted to the habit of 'Ore Ganguing' for the remainder of his university days.

The coming W.I.U.G.C. (Western Inter-University Geological Conference) was the main concern of the 'Ore Ganguer' as it will be the biggest undertaking attempted by the gangue since the first conference was held in Saskatoon four years ago. It was suggested in the fall that possibly Saskatchewan would not hold the conference in 1969 because of an unusually large turnover of students. This hesitation was overcome and the students familiar with past conferences are working diligently with an enthusiastic group of new ganguers to make the 1969 conference the best yet.

Instead of sitting here trying to do something not akin to my nature I should do something constructive for the 'Ore Ganguer'. Thus exchanging my pen for a gas mask, rubber gloves, and a cleaning brush, I will proceed to the dusty depths of the coffee room and clean out the coffee pot which has had a brew rotting in it for the past five months.

Best wishes for all those who have done their time and are now entering the elite group of the permanently employed. To all those who have left just for the summer all I can say is see you at the Sutherland.

DIRECTOR

SECRETARY

ORE GANGUE SOCIAL REPORT

The Fall Party: On Friday, October 18, 1968, the illustrious members of the 'Ore Gangue', the Geology Department faculty, wives, and guests congregated at the Union Center for their annual, and without doubt, infamous fall get-acquainted party. Approximately 80 people showed up to sample the liquid refreshments. Everyone seemed to have a good time --- eh Dave!!! The dance and a lunch filled out the evening. In spite of some initial confusion the party was a real smash.

The Fall Banquet: The Fall Banquet was held at the Marigold Cafe on Friday November 22, 1968. Cocktails were served from 6:30 to 7:30. Promptly at 7:30 the wine bottles were uncorked and the banquet began. The meal was delicious and the conversation was light-hearted although stimulating.

After the banquet Dr. R. Byers presented Jerry Reinson (alias Yogi) with the academic award. Dr. L. Coleman our guest speaker gave an interesting talk on Czechoslovakia. The talk was accompanied by a set of slides.

At approximately 9:30 p.m. the Saskatoon Blue Velvet began to swing and the booze flowed freely.

After the banquet a few stragglers congregated at the abode of Rick Barry and continued with the merriment until the following day.

The January Party: On January 17, 1969 the annual Christmas party got under way. The celebrants gathered at the games room in Victoria Place. The party blasted on until after 2.00 a.m. Many, many thanks to Dr. Brown for allowing us to use his stereo record player.

The Spring Banquet: The Spring Banquet was held at the Golf and Country Club. Cocktails (?) were served from 6:30 to 7:30. At 7:30 everyone took their dinner wine and wife or guest to their table. Jim Look said Grace and the meal began.

Following the meal Dave Kennedy (alias "The Beard") gave a toast to the faculty and Dr. M. Stauffer replied. Larry Urbanowski toasted the grads and Ken Dahlman replied. Dr. A.R. Byers then presented Dave Kennedy with the 'Ore Gangue' Prize for leadership. Following this Henry Klassen presented Mrs. Sins with a bouquet of red roses as a token of our thanks for the enormous amounts of time and energy she spends each year on behalf of the 'Ore Gangue'. Henry Klassen then presented Art Bertrand with the President's award for services rendered to the 'Ore Gangue'.

The guest speaker Calwyn Williams, a professor of law, was introduced by Henry Klassen. He gave an enlightening although somewhat serious talk, entitled "The Restless World."

At approximately 9:30 the bar was re-opened and everyone took up their bar-rail stance. The band arrived and the gangsters and faculty grooved, talked, and drank until the early hours of the morning.

R.W. Bennett
Social Director

SPORTS REPORT

Hockey and broomball were the main events of 'Ore Gangue' sports this year.

The hockey team enjoyed one of its most successful years. With a record of four wins and two losses it appeared that the team would make the playoffs for the first time in several years. A loss in the final game of the regular schedule ended these hopes.

Broomball was very popular with the 'Ore Gangue' members this year or perhaps the parties after the game provided the attraction. The large turnout for the first two games proved the need for division into smaller groups. The result was the formation into four teams; Hard Rockers; Soft Rockers; North Enders (Geophysics and Mining); and the Old Timers (Grad Students and Profs). The four teams battered each other in two tournaments with most games ending in ties and thus no winner could be declared.

It was a very good year for 'Ore Gangue' Sports.

The Field Season

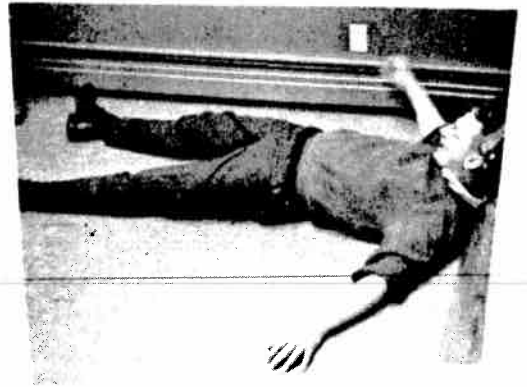

Ah -- This is the same stuff we found 3 days ago that we didn't know what it was -- er -- no -- this stuff has black speckles in it -- It's different again -- Er -- mark it down as -- as -- as -- hmmm -- where did I see this stuff before? Must have been in the 221 Lab exam! Mark it down as black speckled S. O. S.

I'll bet you two to one odds that the little one with the hammer can climb a tree faster than the tall one with the packboard.

Grad students will always lend a helping hand.

Some people can see an outcrop anywhere

Justice must be done.

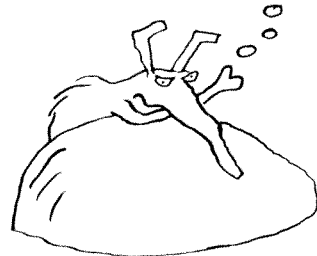

Smoking does funny things to me too.

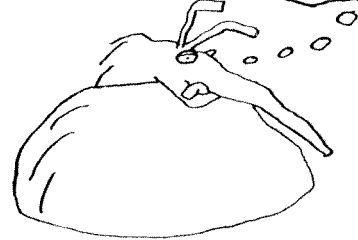

Why do I eat Ants?
Why aren't I a geologist?

I could go to Varsity and take
107, 221, 252, 331, 323, 441, and
great things like that.

I could drink in Holiday House,
Slurp coffee, Play Kaiser,
Bridge, Broomball, Hockey,
and even go to Zortmah!

I could wade swamps all
Summer, sleep under outcrops,
or climb mountains, fight
forest fires, Run from bears,
Eat "green" steaks and
exciting things like that!

But no! ... One day when
I was a little kid I got
hungry and ate an ant.
Some guy saw me and he
says "That's an ant eater."

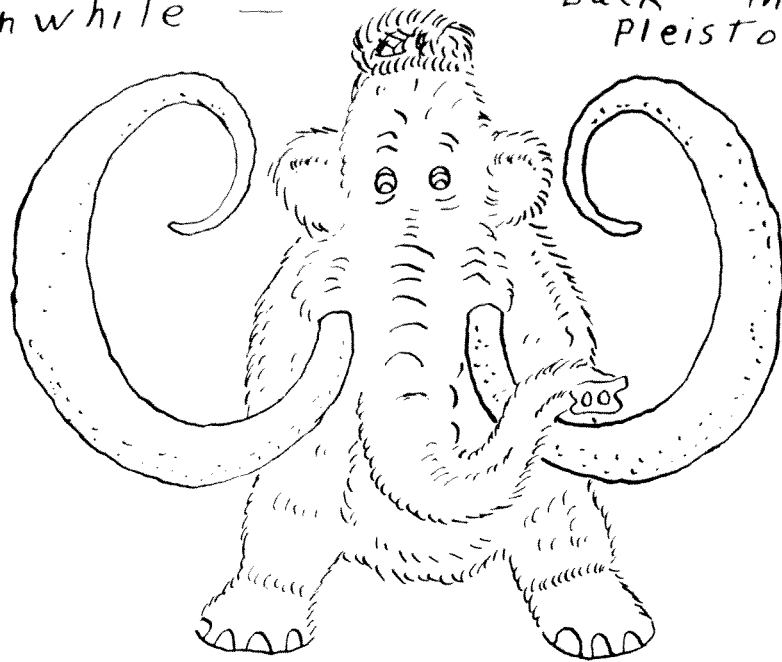

You eat one lousy
stinking ant and
you're Marked for life!
